Installation

Our team of experts will be available to advise on installing your system and help you ensure that it is functioning perfectly. Continuing user support for any functional difficulties is included in the service.

Multiple Users

Multiple users can quickly access the Occupational Health & Safety Information Service at their desktop. Contact IHSti to discuss simultaneous user licenses.

Customer Support

Our Customer Support department provides expert assistance with unusual or difficult searches and advice on software installation, networking and general technical queries. These enquiry services are exclusively for the benefit of our users. Customer Support can be reached on: +44 (0) 1344 328300

Documents on Demand

Hardcopy documents can also be obtained from our IHS ATP hardcopy service. Over a million pages of documents

are available for dispatch to you the day you phone or fax your request. Other documents can usually be dispatched within 2-3 days. Telephone our IHS ATP hotline:

Tel: +44 (0) 1344 328040
Fax: +44 (0) 1344 328005

Today's businesses operate in increasingly regulated environments, with ever changing legislation, guidance, standards and best practice. The key to compliance is access to an established, authoritative and reliable information source.

IHS Technical Indexes offers health, safety and environment professionals online access to key information they require on a daily basis. OHSIS provides comprehensive industry and government information in the form of full-text documents from key publishing organisations covering legislation, guidance, standards and best practice. The extensive, daily updated range covers all aspects of occupational health & safety, environmental health, fire safety, offshore safety, environmental management and food & drink safety, as well as a relevant set of British Standards.

Benefits at a glance:

- Subscribe to the Core supplement and any additional relevant supplements for a cost effective solution tailored to suit your needs
- Daily updating through the Document Alert service, ensuring access to the most current information at all times
- Powerful guided navigation software delivering rapid response times regardless of data scale or complexity
- Access to briefing articles, providing you with a fast overview of key documents
- Hot-off-the-Press, highlighting the most recent significant documents
- News service, keeping you up-to-date as events happen
- Access to key British Standards for assistance in compliance
- Organise and store key documents using "Favourites" functionality
- Edited by Sheila Pantry Associates Ltd and consulting experts, Perry Scott Nash Associates Ltd
- Full helpline and technical support

The OHSIS solution provides those responsible for health, safety and environment management compliance with a comprehensive and current collection of documents, covering occupational health & safety, environmental health, fire safety, offshore safety, British Standards, environmental management and food & drink safety. OHSIS online is designed to save you time and effort by bringing the information you require direct to

your desktop. The suite offers complete coverage and easy, instant online retrieval of required information - to help ensure that your compliance responsibilities can be met. With new and revised listings, updated daily, you can be sure your information is complete and current.

OHSIS provides:

- Guided Navigation for flexible and sophisticated searching
- Rapid response times regardless of data complexity
- Daily updates through the Document Alert service
- News service, bringing you information as it happens
- Briefing articles on key documents
- Regular News Brief on relevant health & safety subjects and publications
- High quality PDF images with rapid file download and faster desktop processing

Optional Supplements

- British Standards
- Environmental Health
- Fire Safety
- Offshore

Searching and accessing documents

- Easy navigation through intuitive and user friendly screens
- Full simple and advanced search functionality for instant access to information. Fully searchable across:
 - all document texts
 - document title
 - publisher

- document number
- ISBN
- publication date
- Wildcard capability and phrase searching to improve your searching capabilities
- Save facility to store favourite searches and documents
- Optional search across the entire suite, accessing all supplements relevant to your search
- Search results presented in columns which offer flexible sort capabilities

User Benefits:

- **Document Alert** - updated every 6 hours for rapid delivery of documents to your desktop.
- **High quality documents** - presented in true PDF with rapid file download and faster desktop processing for ease of use.
- **Favourites** - enabling you to organise and store your favourite documents. Providing you with the ability to build and manage custom folders with document links for quick access to frequently used or popular documents.
- **Powerful search software** - Guided Navigation functionality providing you with flexible and sophisticated searching for ease of use. Being presented with all the valid ways to refine and explore your search further, allows for quick & easy access to the information you need.
- **Wildcard capability and phrase searching** - to enhance your searching capabilities.
- **Fully searchable** - across all documents by text, document title, publisher, document number, ISBN and publication date. Provides you with the search flexibility you need to find all relevant and related documents you require.
- **Alerting services** - including Document Alert, summaries for important documents, regular News Brief, Situation Reports and Hot-off-the-Press. Designed to keep you updated with current and future health & safety issues.
- **News service** - Keeping you up-to-date as events happen.
- **Zero maintenance** - Unlike hardcopy or CD, there is no need to amend and update files. New documents are automatically added for your convenience.
- **Full helpline and technical support function** - for those difficult or unusual searches, helping you to find the information you need, when you need it.

Adding Value...

OHSIS Alert comprises:

- **OHSIS News Brief** - our regular health & safety publication incorporating summaries of key published documents, articles about what's happening within the industry and a list of significant documents that have been included in the product
- **Briefing Articles** - available through the results page, providing you with summaries of key documents relevant to your subscription.
- **Document Alert** - updated daily, delivering rapid online access to documents that are awaiting inclusion in the product.
- **Hot-off-the-Press** - viewable on the homepage, displaying the most recent significant documents selected by our consulting experts Perry Scott Nash Associates.
- **Situation Reports** - written by industry professionals and available within the product. Situation Reports provide you with an in-depth synopsis of topical subjects.

OHSIS Editorial Panel

Sheila Pantry OBE
